Instructions for the Commanding Officer SAR Silver ROTC Medal

The SAR's ROTC Recognition Program recognizes outstanding merit based on a cadet's or midshipman's leadership qualities by presenting a Silver ROTC Medal, service ribbon, and certificate. The ROTC unit's commanding officer has full latitude in selecting one Cadet or Midshipman to receive the award every academic year.

The selection criteria are:

1. The Cadet or Midshipman must be currently enrolled in an ROTC Program;*
2. The Cadet or Midshipman should be a third-year cadet in a four-year program or a second-year cadet or Midshipman in a three-year program;
3. The Cadet or Midshipman must be in the top 10% of their ROTC class;
4. The Cadet or Midshipman must be in the top 25% of their overall class; and
5. The Cadet or Midshipman may not have previously received the SAR Silver ROTC Medal.

ROTC units with fewer than 500 cadet/midshipmen are eligible to present one Silver ROTC Recognition medal each year. Larger units are eligible for additional medals, for every 500 students.

For some time, the Paul Carrington chapter has presented Silver ROTC Medals to Houston area ROTC cadets/midshipmen, one for each service branch. In addition, the Chapter has provided a scholarship check to recipients of \$500 per recipient.

All service branches have approved the SAR Silver ROTC Medal of the Armed Forces. Each service branch has notified its respective ROTC units of its approval and has authorized its presentation to its cadets or midshipmen.

Once the commanding officer has made their selection, complete the nomination form and return it to the SAR Chapter's JROTC/ROTC chairman via email. The release and biography information forms can be returned after the presentation if the nominee is not informed beforehand. If you know, please note the time and place of the award presentation on the nomination form. The Chapter may have the medal, ribbon, and certificate delivered to the school before the award ceremony. This is usually done if there is a potential issue with a SAR representative not being present at the ceremony or possible public health restrictions preventing a public awards ceremony.

If needed, information and instructions for using Adobe PDF files are provided after the Nomination Form.

**Enlisted Marines enrolled in MECEP are eligible to receive the SAR Silver ROTC Medal.*

Adobe PDF Form Instructions

This PDF fillable form requires that you have and use the latest version of Adobe Acrobat Reader. You can download this for free from <http://get.adobe.com/reader/>. Please make sure you download the correct version for your system's operating software. There are different versions for different Windows, iOS, and Android operating systems. In addition, make sure you check for updates by going to the Adobe website or by opening up Adobe Acrobat Reader, clicking on "Help" and then clicking on "Check for Updates."

Save the form before entering information for this SAR Bronze ROTC Medal Nomination Form. Replace the file name with the following format: *Doe John – Bronze ROTC Medal Form.pdf*. The choice of the folder you save the document is your choice.

Special Notice regarding a Failure to Complete a SAR PDF Form Successfully. The most frequent complaint received centers on the inability to fill-in forms successfully and save the completed form. Such a problem usually occurs because: (1) Instructions are not followed; (2) The computer you are using does not have an authentic copy of Adobe Acrobat Reader installed on it; (3) The computer you are using has not been programmed to associate PDF files with your authentic Adobe Reader software; and/or, (4) The user does not realize that Microsoft Windows 10 uses Edge as the default internet browser.

Please be aware that some computer manufacturers and internet browsers install alternative software instead of the free Adobe Acrobat Reader. While these PDF viewers will open and let you read almost all PDF files/forms, they will ***not*** allow you to complete or fill in a PDF fillable form. Therefore, it is crucial that your computer has an authentic copy of Adobe Acrobat Reader, preferably Adobe Acrobat Reader XI or later. Note that the following are not authentic Adobe Acrobat PDF readers: PDF Pro 10, Sumatra PDF, Nitro Reader, Foxit Reader, PDF-XChange, or Microsoft PDF Preview.

After ensuring that Adobe Acrobat Reader is the default PDF reader, verify that it is *associated* by following these instructions for Windows 10: On the left end of the taskbar, Right-click on the "Start Icon." Left-click on "Control Panel" and then Left-click on "Default Programs." Left-click on "Associate a file type or protocol with a program." On the left side under "Name," scroll down to .pdf and read across the line through "Description" to "Current Default." Make sure it says Adobe Acrobat Reader or Adobe Acrobat Reader DC.

If you are using Windows 10, know that your default browser is Edge and not Explorer. The Edge and Explore icons look alike, but it is not so on close examination. Edge does not work currently with specific PDF files, especially Adobe-created files. The solution is to download Mozilla Firefox, Google Chrome, or reinstall Explorer.

If your computer's default software to read PDF files is something other than Adobe Acrobat Reader, you can choose to open them with Adobe Acrobat Reader anyway; this allows you to take advantage of fillable forms, hyperlinks, buttons and other features that Acrobat (PDF) documents often contain. To ensure that you are opening an Acrobat file (PDF) in Adobe Acrobat Reader, first find the file on your computer. Instead of double-clicking to open the file, you should right-click on the file instead. This will open a small action menu. Look down the list of options for a selection named "open with." If you hover over that selection, it will expand to show a list of options for opening the PDF. Next, you should left-click on Adobe Acrobat Reader in the list. Your PDF will now open the program it was intended to be used. NOTE: This will not change the defaults of your computer. It will only use Adobe Acrobat Reader this one time.

Apple has its own program to open Adobe Acrobat Reader files. One problem in using OS X Preview to fill in form fields is that the filled-in forms will probably not be viewable on a Windows system. The solution is to change the "Open With" default application to "Adobe Reader." An internet search using the phrase "adobe reader for pdf files on a mac" should give you more information. You might also want to do an internet search for the phrase "how to configure Mac OS X to open PDF files with Adobe Reader." It has been suggested that to configure Mac OS X to open PDFs with Reader or Acrobat, do the following, but there may be other options:

1. Click the PDF file's icon in the Finder to select it.
2. Choose file> Get Info.
3. Click the triangle next to Open With.
4. Choose Adobe Reader from the Open with menu (if not on the list, choose "Other").
5. Click Change All.

If you still have a problem with this form, please get in touch with the Chapter's JROTC/ROTC Chairman at the bottom of the form.
